AMERICANDREAM

RITA ZIMMERMANN

10-28 September 2015

AMERICANDREAM

Rita Zimmermann has been working with a variety of mediums including photography, video, installation and performance. While she works in a diverse range of mediums there is one underlying structural principle found in all of her work; collage.

Rita recycled images from her fashion photography as well as vintage books and magazines found in flea markets around the world to create her vision. She uses traditional approach with scissors and glue. *"It makes me feel more connected to the original works, scissors force me to work with more precision and I like the scent of paper."* Rita then digitally finishes the work to reveal both her eye for colour, and details.

"I think I always had a surrealistic mind, as I use to write down my dreams often in collage like drawings from my subconscious. I have always been inspired by artists like Picasso, Dali, Magritte, as well as cinematography luminaries Luis Bunuel, Fellini, Lynch."

In 2012 Rita began a long term collaboration with H15 Boutique Hotel in Poland, which is a member of Design Hotels (www.designhotels.com) The initial artwork at H15 was Rita's collage cycle 'AMERICANDREAM'.

"For American Dream, I tried to provoke a dialogue between Pop culture, American standards, silicon deformation, Hollywood, fast food and above all the supersize craze."

"Saving dreams" and "Seduction" cycles take us on a surrealistic journey inside Rita's imagination. Her everyman invites us to the game in which we release our own dream like experience.

"One said, The eye has to travel, I let it travel then I add experiences the eye can't see, pieces of dreams and imagination, letting you interpret my work as the travel of your eye."
